

SC-SIC Strategic Plan 2011-2013

VISION – “To promote and support civic engagement for quality public education in South Carolina.”

MISSION – “The SC School Improvement Council facilitates meaningful parental and community involvement in our state’s public schools by providing resources, tools and strategies to local School Improvement Councils and other stakeholder groups.”

In order to achieve this Vision and Mission, SC-SIC has established the following three (3) goals:

- 1) Advance the recognition and support of SC-SIC and local SICs at all levels within the statewide education community.
- 2) Develop a more robust infrastructure at the state level supporting the Vision and Mission of SC-SIC and the efforts of local SICs across the state.
- 3) Diversify and grow the funding base for SC-SIC to increase available resources and stabilize support.
